About the Conference

MISSION

- ❖ Educate parents and others about Autism Spectrum Disorders.
- ❖ Present latest research on empirically-based interventions.
- ❖ Advance skills of educators/clinicians who work with the autism community.
- ❖ Help connect parents, clinicians, educators, medical providers, and adults with autism.
- ❖ Showcase autism-related service providers. Help them connect with people seeking services and collaborate with other organizations in our community.

AUDIENCE

Last year, over 600 individuals attended the conference. Most were families who have children or a relative with autism. Other attendees included about 200 educators, and dozens of clinicians, adults with autism, and other caregivers and service providers. This year, we expect over 650 people to attend.

WORKSHOPS

The conference will have over 20 different workshops. Topics range from parenting strategies, latest research findings, behavior management, medical issues, teaching strategies, transitions, support systems, preparing for school or life after school, employment issues, and much more.

EXHIBITORS

Approximately 70 autism-related organizations will have tables in an exhibitor room which attendees can visit before the conference starts, between workshops, during lunch, or during workshops. People make great connections and find new resources among all these great vendors.
